Three years in Hong Kong & then Shanghai further enriched Andrew's experience.

## REGISTRATION & PAYMENT FORM

Klibur Domin – a dream come true for hundreds of sick & disabled people in East Timor each year.

From a collection of ransacked buildings in May 1999, a caring home for previously traumatised East Timorese has sprung. Patients awaiting or recovering from surgery, or with conditions including TB and malnutrition, are referred from Dili hospital and Regional Health Clinics.

Since May 2000, 120 volunteers mostly from Australia, have contributed to the development and operation of the home. Truly remarkable, considering that these volunteers have received no remuneration, allowances or travel cost reimbursement from Ryder Cheshire.

Funds to operate Klibur Domin are raised in Australia by public donation and fund raising.
